NATIONAL BARLEY CHAMPIONS

NATIONAL CHAMPIONS: Two Manitoba farmers, one from Alberta and one from Saskatchewan, were the four finalists in the \$25,000 National Barley Contest sponsored by the brewing and malting industries of Canada. At the Manitoba Winter Fair at Brandon, April 1st, federal minister of agriculture, James G. Gardner, (standing left) presented the four national winners with their prizes. National malting barley champion of Canada was George G. Elias, (standing right) of Haskett, Manitoba, whose carload entry was picked as the country's best sample of malting barley grown in 1946. Mr. Elias was presented with a cheque for \$1,000. His barley was sold to UNIRNA and shipped to Alberta from Winkler, Manitoba, Feb. 22. The other three winners, inset left to right at bottom, were George W. Johnson, Lake Alberta, runner-up to Mr. Elias, awarded \$500; Donald Bradley, Portage la Prairie, \$300; and John A. Wylie, Norquay, Saskatchewan, \$200.

Local Minstrel Characters Greeted By Large Crowd

As is usual when any local talent concert is presented in town, a large crowd turned out to the minstrel show in the Didsbury Opera Theatre last Wednesday night, and standing room was at a premium.

The show, sponsored by the Didsbury Lions Club, was a success not only from a financial standpoint, but also as an entertainment feature.

Chris Flanagan was the announcer and the following program was presented:

Variety—Tony Gareau; **Guitar and Piano**—solo—Jean and Deome Kreuger; **Recitation**, Twila McCay; **Trumpet Solo**, Jim Clarke; **Elocution**, Kenneth Sprule; **Piano Solo**, Bvice Thompson; **Solo**, Bert Bahr; **Band**, Preost; **Tap Dance**, Faye Preost; **Elocution**, Joan Currie; **Duet**, Harmonium Brothers; **Joel Barrett** and Bob Erb; **Dance Novelty**, Glen and Walter Fulkerth; **Mixed Ensemble**, "In the Evening by the Moonlight"; **Harmonium Brothers** and **Symphonic Sisters**; **Solo**, Chris Flanagan; **Selection by the High School Orchestra**; **The West Clover Minstrels** variety show was comprised of Vance Shields as the professor, Otto Folkman as Andy, Cliff Murphy as Amos, Jack Edwards as Simon, Jack Reist as Lightnin', Carl Reist as Rufus, Norman Tugge as Abe Lincoln, Cliff Eckstrand as King Fish, Ed Weber as Uncle Tom, Doreen Remmick as Nellie, Claude Shields as Sambo, Sherman Shields as Bones, Raymond Fischer as Joe Louis, and Mervyl Wollen as Rustus.

The last item on the program was "Now the Day is Over," a song by the Girls' Ensemble, with June Parsons, Joyce Topley, Joyce Bahr, Eileen Parsons, Norma Parsons.

DAYLIGHT SAVING TIME WENT INTO EFFECT HERE SUNDAY

Daylight saving time went into effect in Didsbury Sunday night and the town is now conducting business on the advanced time.

While there has been some reports of dissatisfaction due to daylight saving time all residents of town and district are advised that local places of business, including schools, have adopted the new time and if they have not already done so they are urged to immediately set their watches and clocks ahead one hour.

Daylight saving time is now in effect in all towns between and including Red Deer and Calgary. Inverness, Olds, Didsbury and Crossfield went on the new time last week end, while Carstairs adopted daylight saving time a week ago.

The only service in Didsbury remaining on standard time is the Canadian Pacific Railway, but for the benefit of all readers of the "Pioneer" we have changed the C.P.R. time tables running in the paper to daylight saving time so that there will be no confusion. These appear at the bottom of column six on this page.

W. HARPER PROWSE M.L.A. TO ADDRESS JOINT LEGION AND LIONS CLUB MEETING

At the regular meeting of the Didsbury branch of the Canadian Legion, held on Wednesday, April 30, it was decided to change the meeting night to the last Thursday in the month, with the next meeting being held jointly with the Didsbury Lions Club. At the meeting W. Harper Prowse, M.L.A., will be the guest speaker.

Trev Evans was appointed chairman of the entertainment committee to replace Bert Bahr, who has transferred to Gleichen. W. Gillett was also appointed a member of this committee.

There will not be any business conducted at the next meeting but a delegate will be selected to attend the Provincial Convention in June.

Members and others wishing to hear the broadcast of events in World War II, given by the Legion, are asked to tune in to CFCM every Wednesday evening at 8:45.

Ken McCoy was accepted for membership.

A committee was appointed to investigate the placing of a bronze plaque on the Cenotaph in memory of those who fell in the recent war.

The meeting broke up early to enable members to attend the minstrel show.

LOCAL FISHERMEN REPORT SOME LUCK OPENING DAY

Fishing season for trout opened May 1st in all streams in the district tributary to the Red Deer River and a number of local fishermen were out for the first day and again on the week end, and report varying results.

Ed Ford and Russel Ady secured 15 fish Thursday in the Raven, but on Saturday Russel Ady and Ed Dogon did not do so well on the Dog Pound getting only one trout.

With considerable restocking of trout in local streams Didsbury fishermen expect a fairly good season this year.

With the opening up of the road to Burnt Stick Lake picnic parties to this locality will no doubt be numerous when the weather warms up a bit and the road improves.

Moisture conditions are ideal for this time of year with plenty of sub-soil moisture to germinate the seed. While there will be no general increase in acreage sown this spring, it is expected that there will be an increase in barley acreage. Some farmers will be growing flax for the first time in years, although it is not expected that the increase in this grain will be as heavy as in some of the southern parts of the province.

MAY COUPON CALENDAR

BUTTER—Coupons B35 to B49 now valid.

Coupon B50 valid May 8.

Coupon B51 valid May 15.

Coupon B52 valid May 22.

SUGAR—Coupon S36 to S48 now valid.

Coupon S49 and S50 valid May 1.

Canning Sugar Coupons Y1 to Y5 valid May 15.

TREE AND SHRUBS COMING OUT IN LEAF

Spring is definitely here and with the warmer weather the poplar, maple, caragana, apple and other trees and shrubs are now coming out in leaf, presenting a green appearance not only in town, but on farms and in our bush country to the west.

Local gardeners are busy putting in vegetable gardens and amateur landscape gardeners are again at work in all parts of town, in an endeavor to get their lawns and flower beds in shape for another season.

STANDARD GARBAGE CANS RECOMMENDED FOR DIDSBURY TOWN

Mayor Lynch-Staunton presided and Councillors Reiper, Caithness, Pres. Gilson, Bowman, Parsons and Kimball were all present at the regular meeting of the Council of the Town of Didsbury held Monday evening, May 6.

Several requests were received from taxpayers for culverts in front of their property, but these were refused on the grounds that the town at present was prepared to maintain culverts in lanes and streets only.

Mr. Mooney, sanitary inspector for the Rosebud Health Unit, was present at the meeting and advised that a by-law be passed requiring citizens to have standard garbage cans, to lessen work of the scavenger and provide better sanitary conditions. Council was in favor of passing the necessary by-law, and the question was left in the hands of the Sanitation Committee, and due notice will be given citizens when recommendations become effective.

Approval was given to a resolution providing for daylight saving time in Didsbury.

It was decided to send delegates to a meeting of the board of directors of Calgary Exhibition and Stampede, to be held in Calgary on May 14, to draw up a program for the Stampede Parade in July, to include a history of the west, with contributions from various towns in the province.

Council recommended that Dr. H.W. Epp be appointed a Coroner in Didsbury.

Four new fire extinguishers have arrived in town and have been placed in Galt's Garage, Rosebud Hotel, Ed Kercher's residence and E. Reiffenstein's garage.

Two new applications for lots were received from prospective home owners.

LUTHERAN MINISTERIAL MEETING IN DIDSBURY

The Lutheran Ministerial of Calgary and vicinity met in the Lutheran Church in Didsbury for its monthly intersynodical meeting on Monday, May 5. The meeting was opened by Rev. E.B. Fox, and thereupon he cordially welcomed the Pastors present. The following Pastors were in attendance: A.P. Miller, Calgary; Rev. D. Lentz, Trochu; Rev. P. M. Garry, Rev. J. Leinweber, Calgary; Rev. L. Tengbom, Calgary; Rev. Rasmussen, Wayne; Rev. Jorgen Standard; Rev. Gehrung, Clarens, and Rev. E. Fox, Didsbury.

A paper entitled, "The Distinctive Contribution of My Synod to a Larger Lutheran Church," was presented by Pastor Jorgenson. Each Pastor present contributed to the general discussion by showing how his Synod has furthered the work of the Lutheran Church, especially in view of the present day conditions. It was shown that the conservative standard of the Lutheran Church on the fundamentals of Sacred Scripture, has been a wholesome influence in world affairs and especially in the realm of religion.

"The Inspiration of Scripture" is the topic that will be discussed at the next regular meeting. These intersynodical meetings are held every month, with all Lutheran churches participating, to bring about a closer unity among the Lutheran bodies. A joint meeting of all the Lutheran pastors in Alberta is planned for the early part of September and will be held in Red Deer.

CREAM PRICE RISES

With the lifting of the subsidy of ten cents per lb. butterfat to cream producers, J.W. Wordie, local manager of Crystal Dairies Ltd. announced that cream prices have been raised 12 cents on all grades brought in by producers. This brings the price of Special Cream to 51¢; No. 1, 49¢; No. 2, 44¢; Table Cream 57¢.

Four Municipal Grader Crews Put District Roads In Shape

All councillors were present at the meeting of the Council of the Municipal District of Mountain View No. 49, held in Didsbury on Monday, May 5th, and the only by-law passed dealt with the erection and control of electric power lines within the boundaries of the municipality.

Approval was given to three tax consolidations with settlement being obtained in full.

Reeve C. Fox and secretary-treasurer A. Brusse appointed a committee to investigate the purchase of a hangar at Netook air port, reported that building has not yet been declared surplus property by War Assets Corp., but when it is the municipality will be duly notified.

Howard Hammell, M.L.A., was present and discussed the taking over by the Dept. of Public Works of the Cremona road as a secondary highway, Reeve Fox and Councillors Roedler and Goetjen were appointed a committee to keep agitating for the secondary highway.

Arrangements have been made to have a road diversion surveyed on N.W. of 12-32-5.

A number of applications have been received for travel roads on a one-third basis but no definite action was taken as Council had not been advised of the amount of the capital grant to be received from the provincial government.

The Agricultural Service Board recommended the purchase of a camera and projector to assist in the promotion of an educational campaign on weed control, and Council approved the purchase.

Approval was also given to two applications for business licenses to be granted by the Department of

Trade and Industry.

It was reported that four grading crews are now working in the municipality and that considerable road maintaining has been done in all parts of the district.

Accounts and pay sheets completed the business of the meeting.

MELVIN NEWS ITEMS

Of course it takes a day or so to get used to daylight saving time, but it's even more difficult to convince the cows that they must cooperate and come in from pasture an hour earlier.

Clary Youngs left Sunday evening for Medicine Hat where he will take up residence in the summer.

Alan Chandler is home again after attending Calgary Technical School for the winter.

APPOINT MRS. HOSEGOOD CONVENTION DELEGATE

With an attendance of 15 the Rugby W.I. meeting this month was held at the home of Mrs. Thompson. Mrs. H. Hosegood was appointed official delegate to the provincial convention this month and a donation has been turned in to the Cancer Fund from the Rugby branch. A box of children's clothing has been sent to headquarters for shipment overseas.

The resolutions that will be brought up at the convention were read and discussed, and then marked for the convenience of the delegates.

Members will gather at the home of the secretary some day soon for the purpose of finishing a quilt, which is being made for refugee work.

Next month the meeting will be held at the home of Mrs. Cowitz.

Mr. and Mrs. Frank Emery spent the week end in Didsbury with Mr. and Mrs. W. Skerry.

PREVOST MOTORS NEW MERCURY AND LINCOLN DEALERS

In an advertisement in this issue of the "Pioneer" Ford Motor Company of Canada Limited announces the appointment of Prevost Motors as authorized dealer in Didsbury, Medicine Hat and Lincoln and Mercury trucks.

Prevost Motors is the name under which Bert Prevost will operate his new garage business which he recently purchased from Ken Cassidy, and for the present "Bert" will carry on in the Cassidy Lumber Yard building and continue to service cars and trucks for his old customers. He has engaged Bob McLean as stock man, and will have Al Regier in charge of the shop. Dave Gillespie will also be in the shop, both these men having previously been employed by Mr. Cassidy in the garage.

Mr. Prevost came to Didsbury about a year and a half ago after working for MacLean Motors in Calgary for 18 years, and purchased the Harry Service Garage which he operated until about a month ago, when he sold out to W.M. McCleoch.

Mr. Prevost has purchased lots just south of Jim Caithness' office and warehouse on Railway street and this summer plans to erect a new, modern garage building on the property. In the meantime he will carry on at his present location and endeavor to give the best possible service to both old and new customers.

AN ALFALFA DEHYDRATING PLANT

According to a press report an alfalfa dehydrating plant is to be established almost immediately at Brooks, at an estimated cost of \$15,000. A plant of this size would need 400 acres of alfalfa to keep it operating for this season.

Brooks has long been known as a great alfalfa growing district, with its irrigation, and some heavy crops have been raised. However, Brooks hasn't by any means the edge on the Didsbury district when it comes to growing alfalfa. A number of farmers here have been growing alfalfa for years and two and three crops a year have been cut on good alfalfa land. And it doesn't take irrigated land to produce these crops. Our district has always been known to have plenty of moisture for grain and grass crops, and alfalfa in particular can be raised with far less expense and labor than in the irrigated areas of the province.

If the Brooks district can support an alfalfa dehydrating plant, then our own district can be considered equally favorable for the establishing of such a factory, and as the west progresses and more manufacturing concerns are established, it may not be so long before interested parties are seeking for industrial sites in our town to establish new enterprises.

OUR JOB DEPENDS ?

Responsible journalists in Canada use these striking words in writing and speaking of the international trade conference opened recently in Geneva, Switzerland. Canadian farmers realize that their prosperity is equally or even more seriously at stake.

The meetings of the preparatory committee on trade and employment were held in London, England. They opened last fall with high hopes and much enthusiasm. The end was not encouraging for those who realize that peace and prosperity both depend on finding ways by which the peoples of the world can trade freely. Not only will world trade bring food and clothing to its people—perhaps it is the only way to bring different races and peoples to a better understanding and appreciation of one another. Certainly no other way has been found yet.

Canada's prosperity is more vulnerable to world trading conditions today than ever before. When she was only a producer of primary products all we needed was markets for wheat, fish and lumber—and when these were depressed it brought us considerable hardship. Today we are a leading industrial as well as agricultural, fishing and lumbering nation. Today we need markets for large quantities of manufactured and processed goods. Modern machinery has made it possible to work our farms, forests and fisheries efficiently with fewer people and more and more Canadians are being employed in the industries and trades.

It is for these compelling reasons that Canadians are anxiously watching the conference with great concern about the signs which developed in the preparatory committee.

FOOD IN THE WAR OF IDEAS

During the last year the world has been short some millions of tons of food. The famine areas were mostly in Western Europe and Eastern Asia. In this year ahead it looks as if there will still be a drastic shortage in those areas without a great enough surplus in the Americas to overcome it unless we here on this continent begin to face the problem with a new attitude. There is still time for us to change and to plant a larger food crop that we have so far planned.

We need to see how food shortages disrupt our world and prevent the building of permanent peace. People who are ill-fed are unable to produce the goods needed to rebuild a shattered world. They are a prey to feelings of bitterness and resentment and consequently become instruments in the hands of those who control what food they do get. This means that they, the hungry, can be used as pawns in the game of men intent on gaining power for themselves or for their ideology.

Equally it is true that if we who have the surplus control its use and see that fair play and justice are part of its distribution we can build into the hungry a respect for our principles and a desire to make them enduring in their society. That should be our objective as democratic people. It may mean, of course, that we have to accept lower returns in dollars but what is that if we get lasting returns in peace? The choice is clearly ours in the next year. We can work and plan to use our resources to re-arm our world morally and spiritually or we may have to accept the burden of physical and military re-armament for a new war.

CALF CLUB IS INCREASING MEMBERSHIP IN DIDSBURY

The regular meeting of the Didsbury Dairy Calf Club was held on Friday evening, May 2nd, at the home of Claude Westfall with 16 members and five visitors present.

Judging began with a class of mature Holsteins, the members of these and Mr. Hugh McPhail giving the correct placings. Following this a class of heifers was judged with oral reasons being given by the members.

The business part of the meeting took place in the house. As both the president, Jimmy Clarke, and the secretary, Pat Gibbs, were absent, the vice-president took the chair and Jeanette Worall acted as secretary. The club members would like to wish Pat a speedy recovery from her illness so that she may take over at the next meeting.

Doreen Westfall gave a very interesting talk on the cause and treatment of ringworm. Ira Roberts followed with a discussion of scours. New topics for the next meeting were given to Ken Morris on "Milk Fever," and Alice Bruce on "Rationing of a Dairy Cow."

The next meeting will be held at Swalwell at the home of Claude Westfall on May 17th. The members will meet and journey out there about 10 a.m., and spend the day judging, and end up with a ball game.

Mr. McPhail thought it would be a good idea this year, as in former years, to have one meeting at the Olds School of Agriculture with the Olds, Bowden and Elmo clubs. The members agreed to the suggestion and the first inter-club meeting will be held on May 31.

The membership of the club is steadily growing, but still more members would be cordially welcomed. At present the membership is 24. Two new members are Robert Clark and Wayne Wilkins. Robert came over with the Webs from the Airdrie district to join the club.

Record books were given out by Mr. McPhail. Each record keeps records of the calves shown. Prizes will be given for record books and every member is requested to keep the book up to date each month.

Mr. Herbert Goetjen and Marjorie visited last Saturday afternoon with Mrs. Spillman Sr. of Cremona, formerly of the Garfield district.

Some farmers in the district are finding that with the warmer weather all fields are drying quickly and spring field work should be advancing well by the end of the week. Winter wheat and rye are making a fine showing and looks very promising thus far.

The meeting came to a close with a delicious lunch served by Mrs. Westfall and Pauline, with weiners and buns, cookies, doughnuts and ice cream. Miss Doreen Westfall played God Save The King.

The club members would like to thank Mr. and Mrs. Westfall for the lovely time spent at their home.

ADDRESS OF NEXT-OF-KIN
WANTED BY LOCAL LEGION

The secretary of the Ladies Auxiliary of the Canadian Legion has received a communication from the provincial secretary, asking for the names of next-of-kin of Canadians who were buried in France. This information is wanted by "Association France-Grande Bretagne", and will be passed on to the attendees who are presently looking after the upkeep of the graves so that when necessary they can contact each other.

The information required is regimental number, rank, name of cemetery where interred, and relationship of next-of-kin.

Relatives of local boys who were buried in France are requested to turn this information in immediately to the secretary of the Didsbury Branch of the Canadian Legion, Mr. C. Aiden.

WESTCOTT NEWS NOTES

Miss Mary Robertson who just recently completed her course at the University of Alberta and returned to her home here, is now teaching at the Jackson school.

Mr. Bouck of Cremona is busy changing the landscape somewhat in the district, as he is cutting the brush with a brush cutter. For one of us who have never seen this being done we find it very interesting to watch the machine at work.

Mrs. Herbert Goetjen and Marjorie visited last Saturday afternoon with Mrs. Spillman Sr. of Cremona, formerly of the Garfield district.

Some farmers in the district are finding that with the warmer weather all fields are drying quickly and spring field work should be advancing well by the end of the week. Winter wheat and rye are making a fine showing and looks very promising thus far.

RANGER NOTES

The 1st Didsbury Ranger Group and a number of friends enjoyed their first hike of the season Monday evening over the light green of the hillsides and over the trees, with young members, and the party proceeded to the "Rock" where a sumptuous meal was cooked over the camp fire. This was followed by active games and a sing song.

The evening was brought to a close by singing of "Taps."

HOUSING CHALLENGE

"The Challenge of Housing", a new release in the National Film Board's Canada Carries On series, delves deeply into the international problem of housing and thoroughly explains how the current situation came to exist, as well as what some countries are doing about it.

The information required is regimental number, rank, name of cemetery where interred, and relationship of next-of-kin.

Relatives of local boys who were buried in France are requested to turn this information in immediately to the secretary of the Didsbury Branch of the Canadian Legion, Mr. C. Aiden.

SQUINT TROUBLE

Medical authorities urge those who habitually squint to seek competent advice. A squint isn't funny, they agree—it's a tip to see the eye specialist. Astigmatism causes blurred or distorted vision, and narrowing the eyelids and contracting pupils, won't make up for it. Squinting causes strain, fatigue, general discomfort and often headaches.

Eddie started
his job
today!

THE MANAGER of the furniture factory in Eddie's town landed a big order. It meant he had to buy a lot of extra lumber, increase his payroll. He lost no time in putting the whole thing up to the manager of his local bank. Together they worked out how much money he would need to take care of wages and other costs until he delivered the goods. Then, with the backing of his bank, he got to work on the order.

... And that's where Eddie came in. He was put on the payroll—given his first chance to learn a trade. Right now he's on his way home to tell Mom and Dad how much he likes his new job.

HAY, PASTURE TESTS

Extensive tests of pure species and mixtures of grass are conducted every year by the Division of Forage Plants, Dominion Experimental Farms Service. Information collected over a period of years shows that the yields may be greatly increased by the use of suitable grass and legume species. The addition of alfalfa to the yielding mixtures in the Ottawa area for hay has given a long-time average increase of 30 per cent over mixtures without the alfalfa. Mixtures containing alfalfa and used for pasture produced 20 per cent more than similar mixtures with no alfalfa. Lactuca, clover, grasses and mixtures produced over 20 per cent more than mixtures containing alsike or red clover as one of the legumes. The new varieties of grasses and legumes licensed in the Division continue to be more productive of hay and pasture than commercial sorts.

CANNER HORSES BRING 2.9 CENTS PER POUND

The third annual meeting of the Horse Co-operative Marketing Association recently held at Swift Current, Sask., reported marked progress in its activities for 1946 and will be a vital interest to Western farmers.

The financial position of the Association has progressed to a point where it is now out of debt. A year ago the capital debt was over half a million dollars. This position has enabled the Board of Directors to allocate the net proceeds to further payments on horses shipped to the Edmonton and Swift Current Plants in 1946. The final return to 1946 shipment will be 2.9 cents per pound. During 1947, 0.6 cents per pound will be paid on these horses. This final return to farmers is twice the price received a year ago.

Following the annual meeting, the Board of Directors has decided to increase the initial payment to 2½ cents per pound for grade A horses, f.o.b. shipping points, commencing May 1st. Farmers, who have sold horses to the Plants prior to May 1st in 1947, will receive further payments at a later date in order to equalize the price increase. All net proceeds from plant operations will be allocated to horses shipped in 1947 on an equalized basis.

WHEAT AND OAT ACREAGE SHOWS SLIGHT DECLINE

Wheat and oats acreage will be down slightly, barley up about 10 per cent, rye up about 20 per cent and flax up about 100 per cent, the Alberta Wheat Pool said in its first crop report of the 1947 season. Although these estimates are tentative, and a number of factors might force drastic revision of farmers' plans, this is considered a fair indication of the effect of new price policies formulated in the last couple of months. For instance, the price of flax was boosted from \$3.25 to \$5 per bushel.

These are the first forecasts of acreage changes.

Up to April 29 the amount of seedling done in the province was "negligible," and at the same time last year 22 per cent was in the ground.

Seeding is later this year than in any year since 1940.

There is a "very satisfactory" reserve of moisture. In some sections of the Peace River district the subsoil is slightly below normal, but everywhere else both surface and subsoil moisture are all that can be expected and much better than for some years past.

Winter wheat, which is somewhat more than 2 per cent of the total wheat acreage, did not come through the winter in good condition. Probably a large percentage of it will have to be reseeded.

THE INFALLIBLE ALARM

To be shown for the first time at the British Industrial Fair will be a new alarm clock that needs neither winding nor resetting. Unlike the standard alarm which fails to go off if its owner forgets to set it, the new clock is 24-hour fully automatic. Once set for "reveille" it will automatically go off at that time every day until readjusted. It is electrical and therefore requires no winding.

STRIP SERIES

"World's Beginning," "Record of Rocks," "First Plants and Animals," the self-explanatory titles of three of a series of educational filmstrips being made by the National Film Board's filmstrip division.

SMALLER PAPERS BEST AD MEDIUM BABSON INSISTS

Small newspapers are more thoroughly read than large metropolitan dailies and are therefore more valuable as an advertising media, says Roger W. Babson, the noted economist of Chicago.

In a recent discussion of American business trends, Babson predicted:

"More emphasis on advertising in small newspapers, and less on the metropolitan mass-circulation dailies."

"Increased social and economic importance for small papers."

"Federally aided decentralization of population, and the consequent building up of small interior communities."

On the subject of national advertising Babson said there is a tendency among advertising agencies to talk too much about the circulation of the newspaper in which the job is their advertising.

"I insist, however, that this is unfair to the advertisers who are employing the agencies. Twenty small city papers may be worth to an advertiser far more than one large city paper with the same circulation."

He continues: "The small papers are read more thoroughly. The average large city newspaper has so many pages that the reader goes through them hurriedly, and does not give sufficient consideration to the advertisements."

"I will not say that weekly papers are seven times as valuable as daily papers of the same circulation, but surely they have some advantages. No one reads a daily paper the day after it is issued, but the weeklies are read during seven days."

"Small town papers will become more and more important. Many of the large cities have reached a maximum in population. Whether or not there is a world War III, the federal governments of this hemisphere must prepare for it by encouraging decentralization and the building up of the small interior communities," concluded Mr. Babson.

"Small town papers will become more and more important. Many of the large cities have reached a maximum in population. Whether or not there is a world War III, the federal governments of this hemisphere must prepare for it by encouraging decentralization and the building up of the small interior communities," concluded Mr. Babson.

IMPROVEMENT LOANS TO 13,030 FARMERS

During 1946, 13,030 farmers obtained loans totalling nearly \$10,000,000 under The Farm Improvement Loans Act. A report covering the first full year's operation of this Act was tabled in Parliament today by the Minister of Finance, Honourable Douglas Abbott.

Loans are made through the 3,100 branches of the chartered banks for the improvement and development of farms and for the improvement of living conditions on farms. The interest rate is 5 per cent simple interest per annum, and loans may be made for periods up to ten years. The legislation aims at assisting particularly the average farmer who in the past has not always been able to obtain bank credit for farm improvement purposes.

Farm implements and farm trucks account for \$7,498,247 of loans made during 1946. These loans represent an actual sales volume of approximately \$12,500,000. From approximately it is reasonable to assume that practically all farm implement sales in Canada requiring financing are now being financed either through loans obtainable under The Farm Improvement Loans Act or through regular bank loans. The result should be a substantial saving to the farmer, not only in the purchase price of his farm implements but also in finance charges and interest rates previously prevailing for this type of financing.

Included in the total are loans to 1,000 farmers to clear and break an estimated 50,000 acres of new land, mostly in the pioneer sections of western Canada. Loans for foundation and breeding stock accounted for 303 loans totalling \$190,937.

One of the most important classes of loans is that for the construction, alteration and repair of farm buildings including farm dwellings and separate houses for farm help. As the supply of material and labor becomes more adequate, it is expected that loans for these purposes will be greatly expanded.

A feature of this report is that of a total volume of \$13,282,307 there has been paid \$5,191,161, an amount equivalent to 39.6% of the total amount loaned, and that up to December 31, 1946 no claims had been made under the Government guarantee by any bank in respect to losses incurred on any loans made.

During Glasgow's foggiest day last winter, twenty tons of soot fell on the City.

Search is Underway for E. B. Bottles

E. B. Bottles, believed hiding in attics, basements and garages became subject for intensive search by Didsbury citizens.

Commonly known by the full name of Empty Beer Bottles, this culprit is responsible for the present shortage of bottled brewery products, and consequently a reward of 20 cents per dozen is being offered for successful apprehension.

Housewives are taking the lead in this search for E.B. Bottles, realizing that recovery will serve a three-fold purpose. It will help consumers to get more of their favorite beverages; it will provide more space in cupboards, pantries, basements and garages, and it will put badly needed bottles back on the job and enable bottlers to continue full operation.

All citizens are urged to be on the lookout for the fugitive. His favorite haunts places around the home should be thoroughly searched, and in the event of apprehension, Deliveries Limited, Agents for Alberta Brewing Industry, should be notified.

CASH REWARD WAITING

Arrangements have been made in the cities for taking "Bottles" into custody at the place he is discovered, and escorted to depot. Cash Reward will be paid at scene of arrest amounting to 20 cents per dozen.

Freight agents are operating and all rural vigilantes need to do is turn "Bottles" over to one of these agents and he will be escorted collected to nearest Deliveries Limited Depot at Camrose, Calgary, Blairmore, Banff, Drumheller, Medicine Hat, Lethbridge or McLennan.

**WHAT is the
Horse Co-operative
Marketing Ass'n?**

It is owned by 14,500 farmers and ranchers in Alberta and Saskatchewan.

The operations in 1946 resulted in a full return of 2.9¢ per lb. for "A" horses. Initial payment was 9¢ per lb., 60¢ per 100 is now being paid, and 30¢ per 100 is being held in reserve.

Shareholders now own the plants at Edmonton, Alta., and Swift Current, Sask. There is no debt.

What About 1947-

The Co-operative is now making an initial payment of 2.5¢ per lb. for grade A horses, f.o.b. shipping point, commencing May 1, 1947—an increase of 1/2¢ per lb. One hundred lbs. shrink allowance on all horses. You will also participate in net proceeds of 1947.

DIDSBURY, ALBERTA**LETTER TO THE EDITOR**

Dear Editor.

Will you please allow me space for this letter in the interests of the temperance cause.

Temperance is one of the largest problems in the world today. Liquor is not only harmful to the drinker's body but through him it endangers others' lives. It dulls the mind so one is not able to think clearly or act quickly. Many accidents are caused by drunken motorists. This alone should make folks see how much harm there is in drinking it.

We may wonder why so many of our young people today are drinkers. It is only natural that children will follow in their parents' footsteps and in many cases today that is what has happened. Parents who want their children to be truthful, honest, clean in thought, language and conduct, should themselves practice what they teach. A good example in most cases is better than good teaching.

We may think we can send our children to school or perhaps to Sunday School to learn temperance but let us consider how much time is spent in school and how much in the home. About thirty hours per week is spent in school where the children are taught temperance, in fact, only a few minutes daily is spent on this subject. Some children spend one hour every week in Sunday School. In comparison, much more time is spent in the home where good example would be much more helpful.

It isn't less helpful precepts we need today, but less hurtful example.

Mrs. Stuart Hooper.

SHORTAGE OF HORSES?

There may be a shortage of work horses in Alberta within a few years. This is the opinion of officials of the Alberta Horse Breeders Association. Some 36,000 head of horses have been utilized for canned horse meat to be sent to Europe. Furthermore, a million dollars worth of work horses were shipped to Eastern Canada, the U.S.A. and Europe in 1946.

A recent television experiment in England was undertaken by a hypnotist, but in the test such a high percentage of spectators were unintentionally put to sleep that a proposed public showing was canceled.

BARLEY CONTEST ENTRIES CLOSE JUNE 15

With the decision of the Brewing and Malting Industries to continue last year's National Barley Contest for 1947, the Contest Committee is preparing for a big increase in entries this year.

Entries will close June 15th. As was the case last year, intending contestants will mail their entries to the Chairman of the Provincial committee: in Manitoba, N.C. MacKay, Dept. of Agriculture, Extension Service, Winnipeg; Saskatchewan, to S.H. Vigor, Field Crops Commissioner, Dept. of Agriculture, Regina; Alberta, A.M. Wilson, Field Crops Commissioner, Dept. of Agriculture, Edmonton.

Submissions slight change, rules and regulations of the contest are the same as in 1946. Printed copies are already available from elevator operators at all country points in the three western provinces, or from local agricultural representatives.

FARM MORTGAGE DEBTS REDUCED 75 PER CENT

Farm mortgage debts in Alberta have declined 75 per cent since the end of 1937, according to a report issued by the Dominion Mortgage and Investments Association. The reduction last year was 22 per cent.

These estimates are based on the experience of 30 life insurance trusts which have a substantial investment in farm mortgages and agreements for sale in Manitoba, Saskatchewan and Alberta.

Alberta farmers during the past nine years have reduced the amount owing in these companies on farm mortgages and agreements for sale from \$39.7 million to \$10.6 millions.

The percentage reduction by Alberta farmers during the past nine years is better than the average for Alberta, Saskatchewan and Manitoba combined.

FILMS AND PHOTOS

Canadian films and photographs displayed in foreign countries have definite value in promoting and supporting the Dominion's export trade, according to government, industrial and export public relations men who met at the Selkirk Club, P.Q., to exchange views on the visual presentation of Canada abroad.

POOL OIL PLANT OPENED

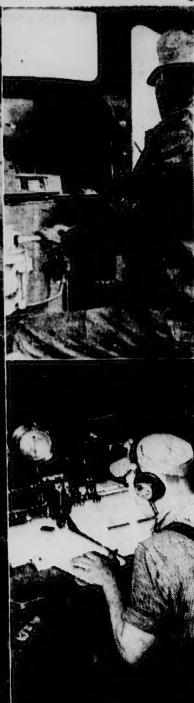

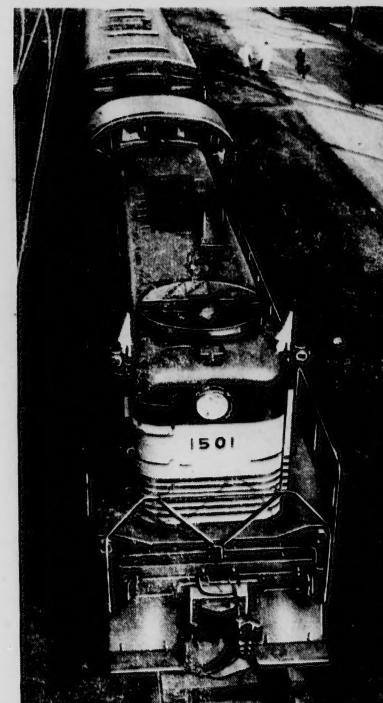

A vegetable oil plant, built in Saskatoon by the Saskatchewan Wheat Pool, was officially opened last week. The plant is for the processing of flaxseed, sunflower seed, rapeseed, soybeans and other oil bearing seeds. It is turning out 24,000 pounds of oil and 45,000 pounds of meal daily.

This plant is the first unit of a \$3,000,000 enterprise which will include a 1,000 barrel a day flour mill, a feed plant and storage elevators. It is also proposed to install equipment for the processing of cereals into starch, anti-freeze and similar products. Among those present at the opening were: Hon. J. H. Sturdy, Saskatchewan minister of reconstruction, and Mayor Angus Macpherson of Saskatoon.

A.F. Sproule, vice president of the Saskatchewan Wheat Pool welcomed the guest to the opening.

REDEMPTION OF POOL RESERVES

The Alberta Wheat Pool expects to be able during the early part of June to issue cheques for the redemption of Pool reserves from Pool members who were 65 years of age or over last December and who have no longer any interest in farm land. The preparation for the "pay-out" has been "a great deal of work, but it is now expected that this will largely be completed by the end of May and that the cheques will be in the mail early in June.

Road tests now being carried out by the Canadian Pacific Railway with diesel-electric locomotive 1501 if successful may revolutionize rail motive power in the Dominion. In this layout (left), the engine is seen in North America leaving the Farmington, Que. yards on its first test hauling forty loaded box cars, with Engineer N. Roy (top right) at the throttle in the spotless cab, while Operator W. B. Patterson (bottom right) works at the chronograph table of the C.P.R.'s dynamic testing station. This car, designed by Canadian Pacific technicians, gives a complete picture of the performance of any locomotive through a complex system of dials and automatic recorders. Following exhaustive tests on the heavy traffic Farmington, Que. yards, 1501 will run on the level Winchester subdivision of the Montreal-Toronto main line and on the curves and grades of the Laurentian division.

BOUNTY OFFERED FOR WOLF PELTS

The provincial government has restored the bounty on timber wolves, according to information received by the Western Stock Growers Association. The bounty will be \$10 per animal, including pups, during the summer months and \$12 in the winter months.

Paying the bounty on pups is a new departure, and considered a good one. It has been the practice in some places, apparently, to let the pups grow up to a "bountyable" age.

The wolves stick fairly close to wooded areas, but do make hunting forays out into ranching and farming land. They have been reported as far east as Hazelton, 25 miles northwest of Lloydminster, and along the foothills right down to the extreme south of the province.

In parts of Saskatchewan a new terror has struck cattle and sheep men. It is a cross between a coyote and a "police dog," and the cross has multiplied the strength, cunning and ferocity of both.

DIRTY EGGS MEAN LOSS OF PROFITS

Many farmers are losing profits by too many dirty eggs being delivered to some of the Registered Egg Grading Stations. One of the chief causes of dirty eggs is soiling of the eggs by hens which walk by hens with wet or dirty feet. A specific recommendation is under consideration by the Dominion Department of Agriculture that only a certain number of nests should be supplied for a given number of birds. The prevention of hens going into the nests with dirty feet can be attained by keeping the litter dry and the hens inside the poultry house on wet days.

It is a waste of time to clean very dirty eggs. The use of water for cleaning tends to carry bacteria and mould into the egg and hastens spoilage. The use of cleaning machines, whether on the washing or abrasive principle is not recommended. Eggs with small spots of dirt or stain may be cleaned by using fine abrasive material, such as emery paper, but should be applied to the portion of the egg which the actual dirt or stain is. As a matter of fact, no type of cleaning can do a very satisfactory job on very dirty or stained eggs. In addition, any kind of cleaning to any egg tends to remove the protective coating of the shell and hasten the deterioration of egg quality. The solution of the difficulty is to keep the nests, litter, and feet of the hens clean.

Another common cause of soiling of eggs is dusty packing material. Sound clean fillers, flats and trays should always be used. As soon as eggs are collected they should be taken to a clean cool room with a temperature between 55 and 60 degrees. They should be left there in the wire-meshed pans (if they are used) or laid in the trays for about 12 hours to cool thoroughly. Only after that time, should they be packed in shipping cases. Under no circumstances should the eggs be kept on the farm more than a week. Also more frequent marketing is desirable if the best financial returns are to be realized.

The "Vampire of Rueil" who was reported as having attacked four women and bitten them about the throat has been arrested by Paris police.

CENTRE LINE NEEDED ON ALBERTA ROADS

The importance of a centre line on heavy traffic routes has been stressed in different parts of the country. It has been found that these assist materially in checking accidents.

Fresh attention to this need has been drawn by an official of the Alberta Motor Association who has just returned from a 5,000-mile trip through the U.S.

He says the centre line is a great aid to preventing accidents in fog or other conditions when visibility is poor. This has been the experience in various states.

Some months ago, the provincial department of public works announced that it proposed to centre line 100 of the main highways of the province this year. It is hoped that this will be carried out, as it should prove valuable in curtailing accidents.

The proposal for Alberta is to use luminous paint on a centre line which will be easily seen, particularly at night. Even on highways which have a black top surface, a centre line should be laid that will give efficient results.

THE DRIVER IS STILL IN THE SEAT

(By Edna Jaques)

Many of us remember the good old horse and buggy days when a trip to town meant a day's preparation before hand.

You rose about five in the morning to feed the horse. Then had your breakfast, no cup of coffee and cigarette, no sirree. Your breakfast consisted of a thumping bowl of hot rolled oats with brown sugar and cream, a couple of eggs, fried potatoes, toast and a big dish of apple sauce. Thus fortified you faced the day with vim and vigour and knew you'd see the day through.

Then the trip to town, the long quiet road, lush fields, a chance meeting with neighbors—going to town really meant something. Then the return trip in the top of the hill always put a lump of happiness in your throat.

Remember how you handled in the morning, carrying your horse up the long hills holding them easy on the level stretches, easing him down hills, letting him feel his head a bit, yet ever aware that you were there in the seat guiding him, using your good common sense to ensure a safe centred milk products, many journey home.

Well, that is something like the story of price control, rationing and equitable distribution—anti-inflationary measures, controls when and where needed, and all the wide set-up necessary to keep the National housekeeping on an even keel.

The latest release of controls announced April 1st, is a further step on the road back to peacetime living, and while hundreds of them are released from price regulations, the essentials of everyday life such as flour and bread, breakfast foods,

tea and coffee, butter, cheese, dried fruits, most canned vegetables, jams and marmalades are all under price ceiling still.

Almost all meat and meat products, fresh or canned chicken, canned fish all fats as well as salad and cooking oils.

Men's and boys clothing, except those made entirely of wool are still price controlled, women's and girls clothing, except woolen garments are still under price ceiling also. (All woolen goods—yarns, fabrics and clothing have been taken from under price control.)

Soap and soap products still are under controls, diapers, working clothes, farm machinery, storage and cartage, meals served in public places as well as hundreds of essential goods and services in common use by consumers.

With the resignations of Donald Gordon from the Chairmanship of W.P.T.B., people from coast to coast are asking what is going to happen now. But we would like to tell you we are not scuttling the Price Board. we are just changing drivers.

Mr. K.W. Taylor, who succeeds Mr. Gordon is a worthy successor, superbly qualified to steer the National horse and buggy over the rocky road of decontrol and easing of wartime measures, home to the normal peacetime way of life.

His steady hand on the reins will ensure a safe trip with the same policy of equitable distribution, price controls of essential goods, steady effect of knowing that these measures will be held until they are no longer necessary.

It is now nearly a year and a half since hostilities ceased and although Canada's cost of living has risen a few degrees in the last eight years it is still rated among the lowest in the world.

THE INDIAN SUMMERFALLOW

(By H.G.L. Strange)

Quite a lot of interest has been aroused by a new method of summerfallowing that has been practiced in recent years by a number of farmers in west-central Saskatchewan.

It appears that a farmer several years ago, probably by accident, decided to summerfallow his land, and so a great growth of weed plants occurred which set to seed. Early the next spring the farmers burnt off the crop of weeds and sowed the land to wheat, probably not expecting to get much crop. To his astonishment he harvested quite as good a crop as his neighbor and his field apparently had fewer weed plants. Other farmers noticing this practiced this method and report good results.

The Dominion Experimental Farm at Scott noted this and, being always alert for new things, laid down some plots for study. The results gave them enough justification to carry on with their experimental work.

More information is needed about this new method. If it really works, it will save the cost of summerfallowing, and prevent some soil-blowing in some districts. Those farmers who care to try this new method of summerfallowing on a small field should write to Mr. G.D. Matthews, Superintendent, Dominion Experimental Farm at Scott, and tell him about their results.

Indians believe that when a man is smoking and the smoke blows in a streak to one side it will rain within twenty-four hours; a robin sitting in the very top of a tree and singing is a sign of rain. Northern signs indicate that the weather will be dry and cold.

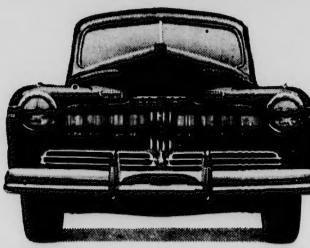

CANADA'S TEXTILE INDUSTRY is not generally regarded as being anything very exciting. It is true that in normal peace-time years textiles led all other industries in employment and wages paid. But that means we are just a part of regular daily living in Canada. It makes us about as exciting as a kitchen table.

DURING THE WAR, Canada's hundreds of textile plants turned out millions of yards of urgently-needed supplies. Today we are working hard to catch up with the heavy and growing civilian demands of the post-war. We provide thousands of jobs to Canadian citizens at new high wage levels. True, these factors do not seem exciting but it is nice to know that we have a place in Canada's way of living. A kitchen table may not be exciting but it is important to the household.

R. E. LANTZ
PHONE 38 — DIDSBURY**MUSIC AND DRAMATIC FESTIVAL, EAST DISTRICT**

The music and drama festival of the south east section of the Olds School Division was held Friday, May 2nd. Some 127 entries were listed with ten schools participating.

There were many good entries under these headings: School Choruses; School Union Songs; Solos; Duets and Action Songs, and in the drama section many good recitations.

The rhythm band from New Bergholt drew favorable comment from the adjudicator.

Mrs. A. Boffey adjudicated the

music section and Mrs. J. Hugel the drama section. The critics were helpful to teachers and pupils alike and were given so constructively.

A humorous play put on by the two New Bergholt seniors rounded off a day well spent.

EVANGELICAL UNITED BRETHREN CHURCH

DISTRICT NEWS:-**BURNSIDE NEWS NOTES**

Jas. McCulloch was a Calgary visitor last Thursday. He was accompanied by his son, Arnold, who is attending school in Calgary.

Burnside school is changing teachers. Miss Mason, who has been supervising for the past eight months, has left and the new teacher is Miss Wright.

Howard Pross has completed the foundation for his house and the building will be completed right away. Much credit is due to Mr. Pross who has been doing his share towards getting the new home ready for occupancy, and Mr. and Mrs. Pross are to move in as soon as seedling is completed.

C.H. Mardon, who has been in the Belcher Hospital in Calgary for the past four months, came out last Wednesday and spent a week at his home. He leaves again this Wednesday for No. 2 Wireless Convalescent Hospital in Calgary.

Mr. and Mrs. Bob Jones were dinner guests Sunday at the Grenville McCaig home.

Mr. and Mrs. Charles Welsh of Calgary visited Sunday at the Thompson home.

Mr. and Mrs. Dave Pratt spent Sunday at the home of the latter's sister, Mr. and Mrs. Jack Underhay.

Sandy Brander's sister, Margaret, with her husband and son, are visiting at the Brander home. Mrs. Brander and her infant daughter recently moved from the Didsbury home on Monday.

Mr. and Mrs. Harry Richardson spent Sunday evening at the Mardon home.

Mr. and Mrs. Scottie St. Clair and family of Ponoka are visiting relatives east of Didsbury.

Mr. and Mrs. Joe Clarke are helping the latter's nephew at Carseland this spring.

NOTES FROM THE WEST

Mr. and Mrs. Albert Krebs visited with Mr. and Mrs. Claire Grosby on Saturday evening.

Mr. and Mrs. Harry Hosegood and Mrs. Hosegood Spent Sunday afternoon with Mr. and Mrs. A. L. Hogg and the former two visited Mr. and Mrs. Colin Hogg Sunday evening.

Miss Rita Wilson returned with Mr. and Mrs. Arnold Hogg from Cremona on Saturday evening, then all three were dinner guests at the Wilson home on Monday.

Mrs. Sayers of Saskatchewan is visiting her daughter, Mrs. E. McInnes.

Mrs. Ed. Parker who has been visiting in the district, returned last week to Kitchener.

The Elkhorn hard ball team played Cremona at the latter place on Sunday, winning by a score of 10 to 2.

BERGEN AND NICHE VALLEY

Grandma Halvorson is home again from Didsbury.

Edwin Halvorson and wife were home from Sundre on a visit.

Leona Mekkelborg and family and Mrs. and Mrs. Mekkelborg Sr. took a trip to Calgary on Monday.

The Baerg brothers were out for lumber on Thursday and Friday.

Harvey Burgess is hauling lumber with four trucks during the good weather.

Rev. Herb Robinson and wife attended the quarterly conference in Calgary this week.

Mr. and Mrs. Paul Baerg are the proud parents of a baby girl.

Paul Toews is out at his mill. Fire threatens the mill and the lumber.

Harry Johnson of McGee, Saskatchewan, was visiting at Lyle's this week.

Mr. Lyle went to Calgary to "prove up" on the S.W. of 27-31-6-5.

Edwin Clarke took a trip to Calgary on Wednesday.

—

BARLEY CONTEST ENTRIES REQUIRE CORRECT SEED

Contestants in this year's National Barley Contest are warned by the Contest Committee to make sure that they obtain pure seed if one of the recognized malting varieties.

Of the 1,334 entries received last year a considerable number had to be eliminated because they were not growing a malting variety.

The Contest Committee in its best judgment believes that contestants may obtain from their nearest elevator operator or local agricultural representative, this year has recommended varieties most suitable for each province. In Alberta the recommended varieties are Olli, Montcalm and O.A.C. 21.

NEWS**

—Henry Erb, agent for Alberta Nurseries of Bowden, will take orders for nursery stock and high class seeds. Landscape planning and landscapes. Also agent for MacDonald Granite Co., Calgary; memorial and grave markers. The oldest firm of its kind in Alberta. 13-819

Mrs. Ernie Nelson arrived the first of the week from Westlock, to take care of her mother, Mrs. Oldham.

Charlie Mortimer, local Calgary Herald circulation manager, is driving a new 5 passenger Chevrolet coupe.

Mr. and Mrs. Raymond Shantz attended the wedding of Raymond's father in High River last Wednesday.

The Ladies Auxiliary to the Canadian Legion will hold a tea and food sale at home of Mr. Roger Barrett from 3 to 6 p.m., Saturday, May 31. 3c

Born at the Didsbury Municipal Hospital to Mr. and Mrs. Roy Buschert of Cartairs on Tuesday, May 6th, a boy.

Mrs. H. Brooke returned to Didsbury Saturday from Switzerland, where she has spent the past six months. She left last October to see her son, who was ill at the time and unfortunately she passed away shortly after. Mrs. Brooke arrived in Switzerland in November. Mrs. Brooke made the return trip on the Queen Elizabeth.

Don't forget the dance at Rugby Hall on Friday, May 23rd, 5-piece orchestra. Booth will again be in operation for benefit of hall patrons. Regular admission.

Mr. and Mrs. A. D. Schmidt left Friday for Chilliwack, B.C., where they will reside. Mr. Schmidt took the truck with his household effects and they were accompanied on the trip by Mr. and Mrs. O.D. Shantz, who are driving Mr. Schmidt's car out. Mr. and Mrs. Shantz expect to be back in about three weeks.

Mrs. Wilmer Reist, Betty and Florence left last Wednesday evening on an extended trip to visit with Mrs. Reist's mother at Pandora, Ohio. Mr. Reist received word that they arrived in Pandora Friday night, making the journey in two days.

—Don't forget the Youth For Christ rally tonight, Wednesday, May 7, in M.B.C. Church at 8 p.m.

Mr. and Mrs. Leo Nichols and family have moved into the H. M. Reiber house, which they have purchased.

A regular meeting of the W.M.S. of Knox United Church was held on April 21st at the home of Mrs. Bruce Parker with 12 members present. At the close of the meeting Mrs. Parker served a delicious lunch.

The Moms Chapter I.O.D.E. will meet Thursday evening, May 3, at 8:30 p.m. in the Lions hall.

The W.M.S. of Knox United Church recently held a "baby band" tea with 14 babies registered. Mrs. John Ure of Cartairs was guest speaker and tea was served to the mothers and cookies and milk to the children.

The new well has been completed at the Roschuk Health Unit and a new automatic water system is being installed.
